

I'm writing to keep K-Love and Air-1 radio stations all across America. I have a local station in the community where I live (Richmond KY), and another one in the community where I work (Wilmore, KY). They both serve our community with local announcements, and uplifting music and prayer. I travel for my business and can stay connected with my family through accessing K-Love in almost any city I'm traveling through. I get encouragement knowing there are more than a million listeners praying and praising God at the same time, through these stations. If K-Love or Air-1 was displaced by an LPFM broadcaster, our community would suffer. We've had other Christian radio stations in the past, but none of them as wonderful as Listener supported K-Love and Air-1.
